## PROFILE

Adaptable and driven software developer with hands-on experience in backend and frontend technologies, including Laravel PHP, Node.js, Java, C++, and HTML. Passionate about problem-solving, creating innovative solutions, and continually expanding my skill set. Seeking a challenging role where I can contribute to meaningful projects, work collaboratively with teams, and grow professionally.

## WORK EXPERIENCE

### ■ June 2024 - Present

The North Lab | Tramari, Alipur

#### Backend Developer

- Developed and maintained backend systems using Laravel PHP, ensuring scalable and efficient solutions.
- Contributed to an AI application project using Node.js, implementing key functionalities and optimizing performance.
- Designed and implemented a banking ATM system in Java and C++, enhancing transaction security and reliability.
